The collection includes textbooks, educational materials, bestsellers, young adult, and children's titles. What They're Offering: Free online resources. Tynker What It Is: Tynker offers a complete online computer coding curriculum for students K-8. Terrapin offers several resources students can use to capture the excitement of robots and coding without leaving home. RV AppStudios What It Is: Kids apps for math, reading, tracing, and more. They believe in the power of physical activity to keep families physically and mentally strong whether in school or at home. The site keeps track of progress, offers graphical hints and explanations, and there are also animated characters to cheer students along. What They're Offering: Over 150 free toolkits ready to use in your classroom. Virtual Field Trips What It Is: Virtual Field Trips specializes in K-8 social studies, life science, geography, and ancient civilization curriculum content. World101 What It Is: A course that provides the basic knowledge on the world and work, and collaborative learning that people face in today's connected world. These hands-on digital learning tools accelerate understanding, deepen engagement, and let you do the impossible. Separated by grades and subjects, there's something for everyone. What They're Offering: Downloaded RV AppStudios apps are free. Scholastic What It Is: Scholastic created the Scholastic Learn at Home website to provide students with an array of learning journeys that span various content areas. Find webinars from fellow educators on how to transition to remote teaching, content that parents or educators can use at home, and free 90-day Teacher Access to all online VHL products. Carnegie Speech What It Is: NativeAccent delivers spoken English skills practice with targeted feedback to students on their computers and mobile devices using advanced speech recognition and A.I. technologies. What They're Offering: In addition to a free trial of their Academic Edition, Gleaditions is offering access to popular titles in their Multigenre E-text Collection and Video Library (carefully curated clips/fil performances). Teach Starter What It Is: Easily download ready-to-use, Common Core aligned teaching resources expertly designed for Pre-K to 6th grade school teachers and their students. Additionally, for those that require it, Davis is offering use of generic student accounts that will allow students to access the content from any computer or tablet with an Internet connection. Flinn Scientific What It Is: Flinn Scientific has compiled many of their free activities, videos and other resources into one location for teachers to navigate through to help them as they teach science to students at home. It provides more than 365 standards-based online resources (with more being added daily) for students PreK-Grade 5. What They're Offering: Pronto is free for educators at this time. LearnToMod What It Is: LearnToMod allows students to learn coding through the modding of the popular video game, Minecraft. What They're Offering: They offer a free teacher platform that allows teachers to set assignments and monitor students' progress. What They're Offering: They have put together a collection of leadership tools and resources curated by expert leaders who have faced crises before. Bunce What It Is: This online learning resources platform gives teachers the ability to create online lessons, boards for students to share their thoughts and work, and collaborative learning spaces. Learn how to sign up here. PenPal Schools Perfection Learning What It Is: Perfection Next is a digital learning platform offering access to our entire catalog of digital resources including AMSCO Advanced Placement, Language Arts, Reading, Math, Science, Social Studies, and World Languages. Listenwise What It Is: Listenwise teaches students to be better listeners using podcasts, comprehension questions, and quizzes. Teachers can check it out here. OpenSciEd What It Is: OpenSciEd offers middle schoolers (grades 6-8) science materials that are aligned to college and career standards. The app provides a fun and engaging way to introduce fundamental math ideas early and ensure kids are comfortable with math. What They're Offering: A free online toolkit. It is an excellent tool for teachers to assign math practice for remote learning. MeTeOR Education What It Is: The library includes virtual education best practice videos, performance tasks for students at home and in traditional classrooms, and other resources for teachers and leaders making the adjustment to virtual education. GameSalad is best suited for 6th grade and up depending on student readiness. Teachers can set up playlists for their students too. It's best used as a companion to other online teaching methods like web conferencing as it's meant to review information students have already been learning. The collection includes textbooks, educational materials, bestsellers, young adult, and children's titles. What They're Offering: Free online resources.
